

anti- MED20 antibody

Product Information

Catalog No.: FNab05092

Size: 100µg Form: liquid

Purification: Immunogen affinity purified

Purity: ≥95% as determined by SDS-PAGE

Host: Rabbit

Clonality: polyclonal

Clone ID: None IsoType: IgG

Storage: PBS with 0.02% sodium azide and 50% glycerol pH 7.3, -20°C for 12

months (Avoid repeated freeze / thaw cycles.)

Background

Component of the Mediator complex, a coactivator involved in the regulated transcription of nearly all RNA polymerase II-dependent genes. Mediator functions as a bridge to convey information from gene-specific regulatory proteins to the basal RNA polymerase II transcription machinery. Mediator is recruited to promoters by direct interactions with regulatory proteins and serves as a scaffold for the assembly of a functional preinitiation complex with RNA polymerase II and the general transcription factors.

Immunogen information

Immunogen: mediator complex subunit 20

Synonyms: hTRFP, MED20, mediator complex subunit 20, PRO0213, TRF proximal

protein homolog, TRFP

Observed MW: 23 kDa UniprotID: Q9H944

Application

Reactivity: Human, Rat
