

anti- PAR2 antibody

Product Information

Catalog No.:	FNab10720
Size:	100µg
Form:	liquid
Purification:	Immunogen affinity purified
Purity:	≥95% as determined by SDS-PAGE
Host:	Rabbit
Clonality:	polyclonal
Clone ID:	None
IsoType:	IgG
Storage:	PBS with 0.02% sodium azide and 50% glycerol pH 7.3, -20°C for 12 months (Avoid repeated freeze / thaw cycles.)

Background

Proteinase-activated receptors(PARs) are G protein-coupled receptors activated through cleavage of their N-termini by mainly serine proteases. The family of PARs include four members: PAR1, PAR2, PAR3 and PAR4. PAR2, also known as F2RL1, is expressed in epithelial cells(e.g., lung, gastrointestinal tract), endothelial cells, smooth muscle cells, fibroblasts, nerves, and some immune and inflammatory cells. PAR2 knockout mice and PAR2 agonists and antagonists have implicated PAR2 as a promising target in inflammatory conditions; respiratory, gastrointestinal, metabolic, cardiovascular, and neurological dysfunction; and cancers.(PMID:23895492)

Immunogen information

Immunogen:	coagulation factor II(thrombin) receptor-like 1
Synonyms:	F2RL1, G protein coupled receptor 11, GPR11, PAR 2, PAR2, Thrombin receptor like 1
Uniprot ID :	P55085

Application

Reactivity:	Human
